

THE WORLD'S NO.1 MOTORCYCLE BATTERY

Yuasa motorcycle batteries are the world's leading brand and are fitted to around 90% of motorcycles at manufacture.

POWER PERFORMANCE RELIABILITY

Yuasa has supplied more batteries to manufacturers, such as Honda, Yamaha, Kawasaki, Suzuki and Harley-Davidson, to name but a few, than all the other battery manufacturers combined. They have strived to exceed the needs of the manufacturers with technology that meets their demanding requirements. Manufacturers demand the best and they overwhelmingly choose Yuasa.

BENEFITS OF YUASA YTZ BATTERY

- Small size, lightweight, huge Power.
- Sealed, Spill-proof design, Absorbed Glass Mat (AGM) Separators, an advanced battery technology, eliminates need to add water
- Low Self-discharge, retains charge 3 times longer than conventional lead antimony batteries
- H Series, Increased Power, 30% more cranking amps

YUMICRON / CONVENTIONAL BATTERY

- Special thin separators, allow two extra plates per cell to be installed, for a 30% improvement in performance
- Sulphate stop to reduce battery sulphation.
- Engineered to protect against corrosion, withstand vibration, and deliver high cranking power
- 6 Volt and 12 Volt

BENEFITS OF YUASA YTX BATTERY

- Valve Regulated Lead Acid (VRLA) spill-proof design
- Absorbed Glass Mat (AGM) Separators, an advanced battery technology, eliminates the need to add water
- Totally sealed and spill proof, all acid is absorbed in special plates and AGM separators
- Advanced lead-calcium technology, holds its specific gravity more than 3 times longer than conventional lead antimony batteries
- Available dry with an acid pack
